# Specialty Materials™

THE BEST GARMENT DECORATION PRODUCTS

# LOVE what you PRESS!

## DecoFILM®

- The “Brilliant” styles offer a smoother, chrome-like surface
- The “Super” styles offer a slightly softer hand and stretchability
- Add value to your fashion designs with the brilliant accent of reflective metals
- Super Silver & Super Gold are Oeko-Tex Class II Certified

### Application Instructions

Adheres to cotton, uncoated polyester, fabric blends, wool

45° Blade for Supers  
60° Blade for Brilliants  
with high pressure

Cut this  
material in  
mirror image

310°F - 330°F

Firm, even pressure,  
cover and reheat  
if necessary

10 - 15  
seconds

PEEL  
Peel cold

Super Silver, Gold, and Copper - Wash  
inside out, gentle cycle, cold water, tumble  
dry low. Suitable for dry-cleaning.  
**All others - Hand wash only.**

**No nylon.**

### Warning for Super Gold & Silver

In order to avoid any color fading after washing, you must press the material with silicone paper for an additional 3 seconds, if not, the washing resistance is considerably reduced, therefore any claims regarding color fading **WILL NOT** be acknowledged in the future.

### Instructions for application to moisture-wicking materials:

Damp a cloth with rubbing alcohol (isopropyl alcohol), then gently apply it to the area on the garment you want to apply your design. Allow it to dry and apply your material. This will allow better adhesion to the garment.

### Instructions for application to dazzle cloth & shiny polyester materials:

We highly recommend that you TEST prior to doing large runs. Coated polyester can routinely cause adhesion issues.
