**3M** Science.
Applied to Life.™

Stretch your imagination.

3M™ Scotchcal™ Clear View Graphic Film IJ8150

**Say hello to optical clarity with options. Lots of options.
Apply your design to vehicle, building or display windows.
Choose from effects like translucent graphics,
frosted with white ink or even see-through
capabilities simulating perforated
film — for amazing results and
infinite possibilities.**

So many options, you may need more windows.

3M™ Scotchcal™ Clear View Graphic Film IJ8150

- Optically clear, 2-mil cast vinyl film
- Creative design flexibility to produce:
  - special effects using white ink
  - see-through effects that simulate perforated film*
  - alternate image on reverse side of a single graphic
- Multiple images in a single graphic eliminate shape cutting for faster installation, perfectly spaced images and quicker removal
- Compatible with digital and screen printing systems

- Versatile, durable and maintains dimensional stability
- Conforms to simple compound curves such as vehicle windows
- Wet application for bubble-free installation
- Performs for up to 7 years** and eligible for the best warranty on the market
- 3M™ Scotchcal™ Optically Clear Overlaminate 8914 or 3M™ Scotchcal™ Gloss Overlaminate 8518 adds extra protection

Special Effects

1. Get the look of custom frosted glass with white ink
2. Let the light through with unlimited transparent color options
3. Print multiple images on a single graphic panel
4. Mix printed images with non-printed, optically clear areas
5. Give your image translucent color using white ink
